GETTING STARTED

Power On / Off

- Make sure the **POWER** switch is in the **OFF** position.
- Insert the Nintendo GAME BOY Game Pak into the slot on the back of the Game Boy body, label facing **AWAY** from play side.
- Slide the **POWER** switch to the **ON** position to turn **ON** the power.
- Follow gameplay instructions on pages 7 & 8.

GAME SELECTION

At the Game Selection screen, press the **Control Pad Up** or **Down** to select either Moon Patrol or Spy Hunter. Once you have selected the game you want to play, press **START** to activate the game.

Your mission is to patrol Sector Nine of Luna City and eliminate all hostile threats to you and your Moon Rover. Your beat will cover points A-Z which is divided into five sections. Complete each section and earn points based upon your performance. Navigate through and over the various obstacles you'll encounter and make it back to base safely. Beware of UFOs and other alien attackers. This is what you trained for, don't let Luna City down!

CONTROLS

Learn how to control the Moon Rover before you head into battle!

CRITICAL DATA

Here's what to look for on the screen.

Total Time

One of the most important things to remember while you're out on patrol is to keep your eyes on the road and in the sky!

EARNING POINTS

You will receive points throughout the game. Here is a breakdown of what will give you points and how many points you will get.

ENEMY VEHICLES

POINT TOTAL

Tanks	200
Spaceships	100
Flying Saucers	100
Triangle Ships	100
Piranha Plants	500
Land Cruiser	1000

You will also receive points for avoiding obstacles such as mines, boulders and craters. If you can't avoid a boulder, remember to use your laser cannons to blast 'em away!

MOON PATROL HINTS

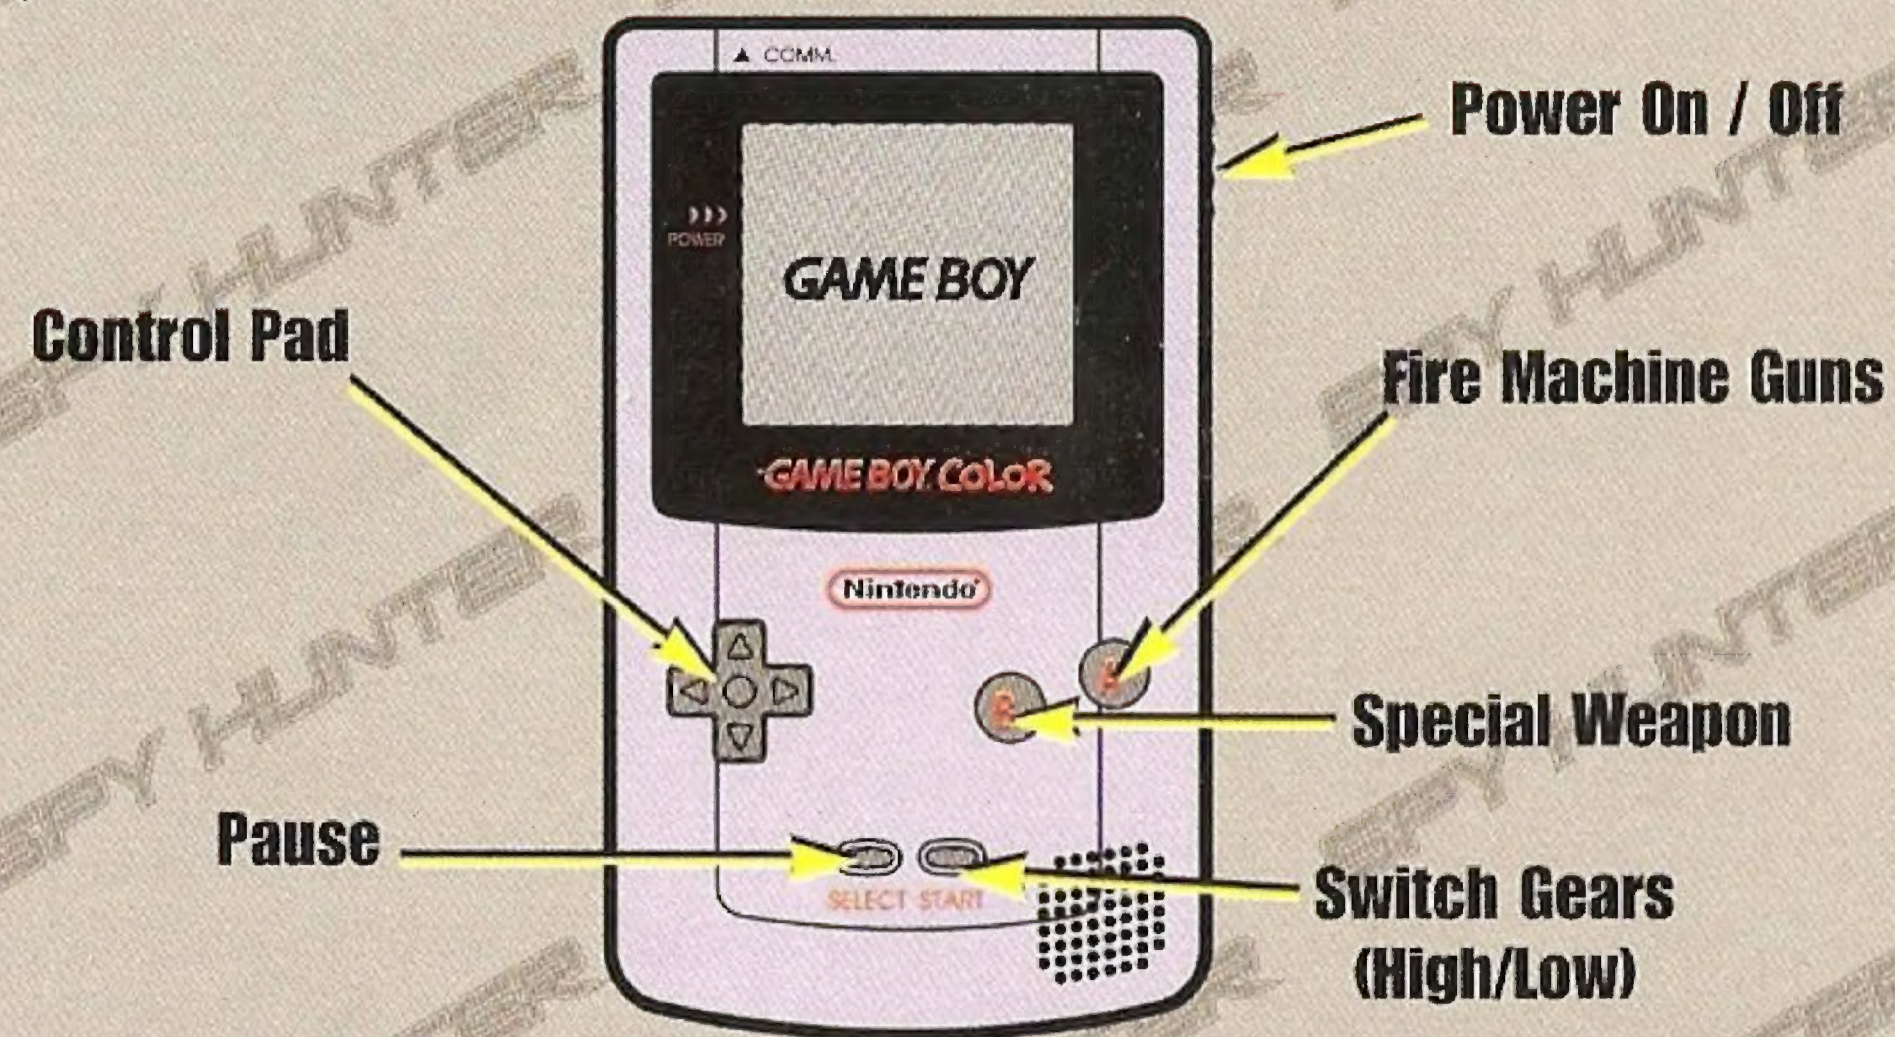

Here's a few tips to help you out when you play.

- Pressing to the right on the **Control Pad** will speed up the Moon Rover. Pressing to the left will slow the Moon Rover down.
- Going fast allows for greater jumps.
- Your weapon only goes a certain distance. Keep this in mind when shooting things on the ground or you could miss your target.
- Certain UFOs drop bombs which create craters in the ground. Watch out for these.

Your assignment is to eliminate all terrorist and intelligence gathering activity you encounter. At your disposal is an ultra-sleek car with looks that kill...literally. Use the machine guns mounted on your vehicle to take out the enemy. If that's not enough, a special weapons van will stop by to equip your vehicle with all sorts of special weapons. Bring your life jacket though, because you might have to use your special attack boat to get the job done!

CONTROLS

Use the **B Button** and the **Control Pad** for different Special Weapons.

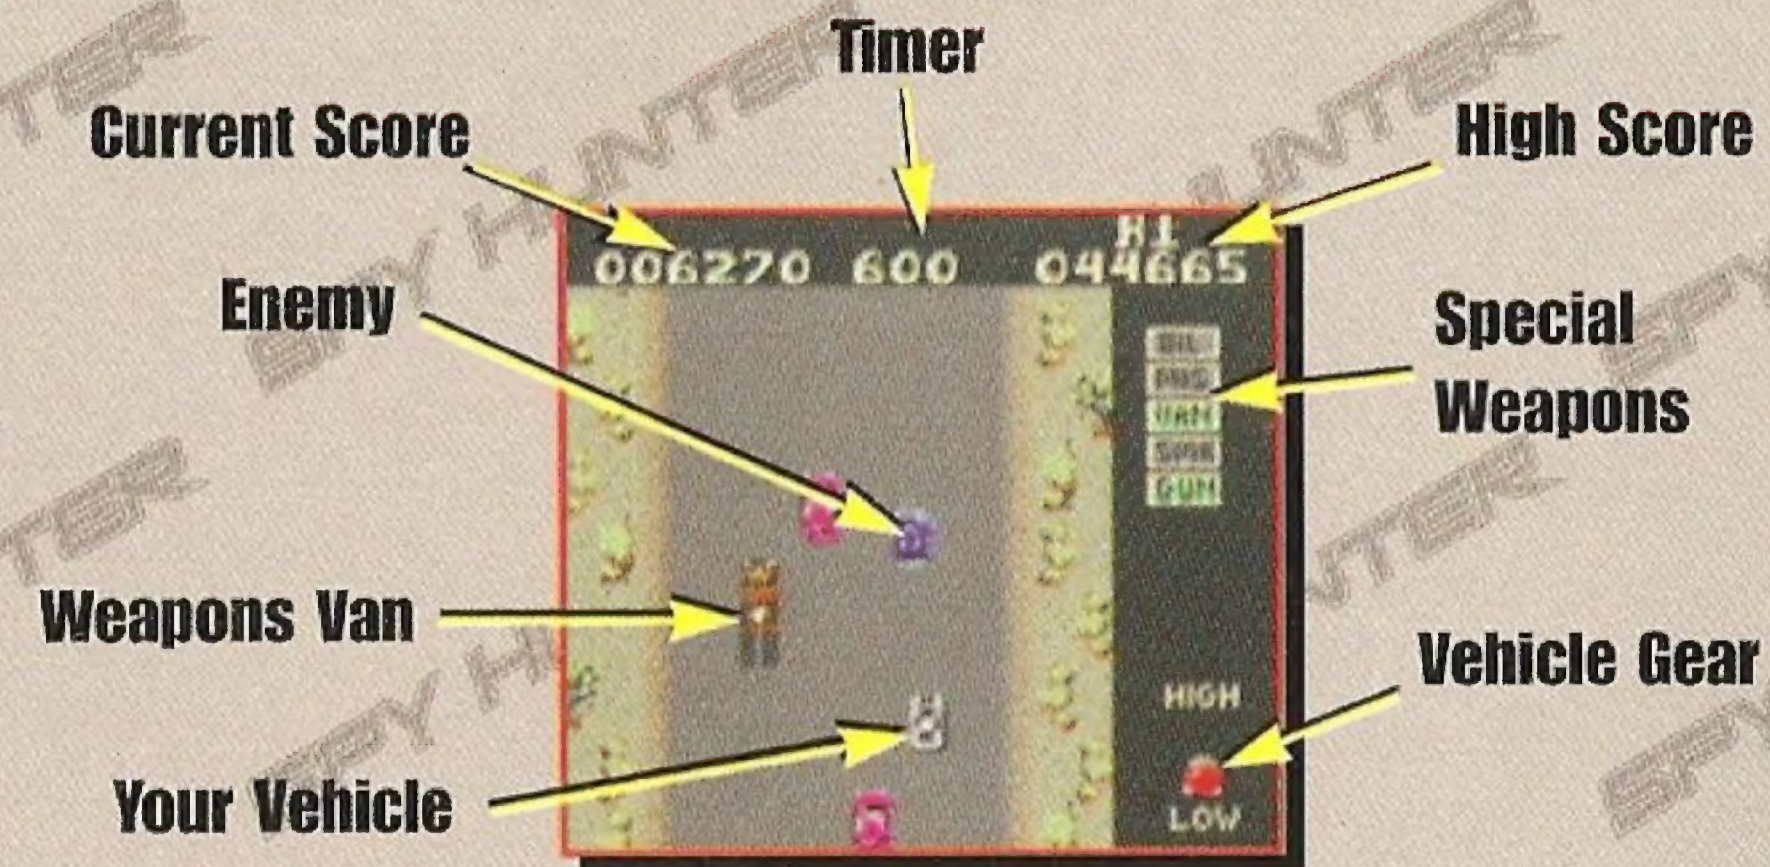

B Button + Up = Missiles

B Button + Down = Call Weapons Van

B Button + Left = Smoke Screen

B Button + Right = Oil Slick

MISSION ESSENTIALS

Pay close attention to the above information if you are to complete your mission. Learn to identify the enemy vehicles quickly if you are going to have even the slightest chance of finishing your mission!

SCORING POINTS

Throughout your mission, you will be confronted with a variety of enemy vehicles to destroy. Some are worth more points than others, but each can be deadly if you don't watch yourself. Be on the lookout for civilian vehicles. Avoid damage to civilians at all costs!

ENEMY VEHICLES

POINT TOTAL

The Road Lord	150
Switchblade	150
The Enforcer	500
The Mad Bomber	700
Barrel Dumper	150
Doctor Torpedo	500

Remember to utilize the arsenal that your vehicle possesses, as well as the weapons that will be deployed from the weapons van! If all else fails, just bump 'em off the road!

SPY HUNTER HINTS

This will conclude your mission briefing...good luck and good hunting!

- Remember to use your weapons carefully. Once they're gone...they're gone!
- Keep a careful eye open for civilians. They will be on the roads and most likely in your way. Proceed around them with caution.
- Use the special weapons van every chance you can. It will supply you with some really useful special weapons!
- Be careful when using your vehicle's different gears. The faster you drive, the easier it is to crash and burn!
